

Greenbelt Route

Possibility grows here.

Mobile Workshop Route Assessment Notes

Saturday May 10th, 2014.
Cobourg to Alderville

General Participant Comments – Cobourg to Alderville:

Good

- Good pavement and low volume for virtually the whole route
- Peter's Woods is a stunning site – Trillium fields
- spectacular scenery
- maps were easy to follow
- Kyle loved the hills!

Needed improvement

- very hilly and almost all up hill in Cobourg to Alderville direction
- not many amenities on this section – is there a chance to partner with some farmers markets?

Other comments:

- instruct cyclists to stick to the right of the road over the hills
- keep directional and wayfinding signage at eye level
- have clear difficulty rating on the maps to ensure cyclists expectations are met

Route Notes

- Alternative past Grafton Village Inn is being considered by the Deputy Mayor
- Alderville First Nations Black Oak Savanna Ecology Center provides a fantastic rest stop.
